

Public Notice to Boil Water

Due to a water main break that occurred on May 19, 2017, the Texas Commission on Environmental Quality (TCEQ) has required our public water system (City of Granger), PWS ID 2460002 to issue a Boil Water Notice to inform our customers that due to the presence of contaminants or an interruption in service, water from our system must be boiled prior to consumption. The area affected is the **East side** of the City of Granger. This is due from a major water leak. To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and making ice should be boiled and cooled prior to use. The water should be brought to a vigorous, rolling boil and then boiled for two minutes. In lieu of boiling, you may purchase bottled water or obtain water from some other suitable source.

When it is no longer necessary to boil the water, the water system officials will notify you that the water is safe for consumption. Instructions to discontinue boiling will be issued in the same manner as this notice.

If you have any questions contact Granger City Hall at 512-859-2755.

If a customer wishes to contact TCEQ, they may call 512-239-4691.
